

Eco-eye Plug-in is easy to use, allowing you to accurately measure the energy consumption of individual electrical appliances in Kilowatts as well as the cost in £s. The results are instantly displayed on the neat screen, giving you the incentive needed to make changes to your usage.

#### Features:

- Displays cost (£) and unit price of electricity (£/kWh)
- Check and display current voltage (V), current (A), frequency (Hz), current power usage (W), lowest power usage (LoW), total K.W. energy (kWh),
- Can record total running time.

Voltage display (V)	90 – 250 V
Current display (A)	0.1 – 16 A
Power consumption display (W)	0.2 W – 3120W
Time displayed in	hours, minutes, seconds
Cost displayed in	£s (price is programmable)
Maximum current	16A

Eco-eye Ltd, The Modern  
Moulds Business Centre,  
Lancing, W.Sussex, BN15 8TA.

Eco-eye Plug-in is produced in  
PRC
